

# Pastoral Parish Council

## Summary for March 20, 2018 Meeting

The Pastoral Council held its regularly scheduled meeting on March 20, 2018. The Council discussed the updating of several areas of the church including the old office area (being converted to meeting rooms), the replacement of the furnaces in Family Activity Center, the new carpet in the non-sanctuary areas, the fans above the altar, and the parking lot lights. All of these projects will begin this spring or summer. The Council also discussed Family Formation and the strategies considered to increase growth for the Distance Parish component, including a new website. The group also reviewed its purpose as a source of support for the pastor (not a policy-making group). There were also brief discussions about the Parish Mission, RCIA, and New Members. The meeting began and ended with prayer.
